Editorial

Dear Artist Friends and Art Lovers,

Welcome to Dubai for our third edition of the 2024 World Art Dubai at the World Trade Center. Multi Art Gallery is happy to exhibit artworks of its artists. Dubai is the city of superlatives, that's what we like! A colorful universe, sublimated by various cultures, where art is everywhere.

About us

Multi Art Events is a Monaco-based organization founded in 2013 by Wendy Lauwers. It is an original concept dedicated to promoting contemporary art through three entities : **Multi Art Events**, **Multi Art Gallery** and **'ART' Art Riviera Tour**. The synergy of these three entities gives a unique insight in today's contemporary art where artists are placed in the heart of news by propelling them both in the press and social network, as well as in notoriety through events and the follow-up done for each artist individually.

Multi Art Events

Multi Art Events is an artistic platform recognized for the quality of its own events and for its collaborations with certain large-scale international events. Multi Art Events creates artistic events, highlighting artistic creation in all its forms and in the diversity of its most striking trends.

Multi Art Gallery

Wendy Lauwers reinvented the concept of the traditional art gallery by adapting it to today's expectations. Multi Art Gallery is an online contemporary art gallery that offers its artists and collectors the same services as a traditional gallery.

Multi Art Gallery represents over hundred contemporary artists from all nationalities, each representative of a strong current in their own artistic discipline (painters, sculptors, photographers, designers...).

The online gallery also supports occasionally events organized in exceptional places. Many Multi Art Gallery artists have been with us for years and honor us with their trust.

ART Art Riviera Tour

The Monegasque online art gallery 'Multi Art Gallery' by Wendy Lauwers. Art Riviera Tour 'ART' is an ephemeral art exhibition that includes a rigorous selection of international artists.

The first edition of the temporary exhibition was launched in 2020 in Saint-Tropez. Its 5^h edition will take place in July 2024 in France in Saint-Jean-Cap-Ferrat.

Art Hugo

Belgium

Hugo de Jesus (Art Hugo), born in 1975 in Antwerp, studied art and discovered large format techniques. He perfected his art of the simple line by working on the decoration of shop windows.

After a long pose, he returned to painting in 2021 and found his artistic path by specializing in the customization of XXL Playmobil. He works freehand and uses acrylic and posca.

His creations, in a patchwork style that does not conform to current artistic canons, are distinguished by the use of neon flash colors, angular lines and broad movements.

In 2023, he created the helmets for Formula E World Champion, Stoffel Vandoorne and World Cycling Champion, Remco Evenepoel. He also launched the Hugo Art Gallery.

Art Hugo is involved in many charities and associations for the benefit of children, women and disabled people and organizes many workshops for children.

Art Hugo exhibits his works in Belgium, Hungary, France, Monaco, Japan, and Dubai.

Jean-Claude Bertrand

France

Jean-Claude Bertrand, French painter born in 1948, leads a pictorial adventure at the heart of our sensory memories. After exploring the worlds of music, perfume, nature, and humans, he is today interested in more environmental and spiritual issues.

He has exhibited in several countries in Europe, Switzerland, Monaco, and Canada.

The works presented at World Art Dubai 2024, “From Oil to Gold”, evoke a journey through the ages of matter.

In the depths of the earth, oil lies dormant. Extracted, refined, it becomes fuel, a raw energy of modern life. Gold, at the other extreme, symbolizes wealth and beauty.

Matter is the common thread of our existence, the link between the past and the future, it is the canvas on which our dreams come to life.

By combining the colors of gold with a raw material made of tar and minerals, the artist offers an “object charged with spiritual vibrations,” a metaphor for the alchemists' myth of lead changed into gold.

Myriam Besri

Belgium

Myriam Besri, who lives in Dubai, began her career as a model in the 90s, working with esteemed designers like Sonia Rykiel, Azzedine Alaïa, Dior, and La Perla, quickly gaining recognition for her captivating runway presence.

Despite her love for the beauty of the fashion industry, she felt a yearning for more meaningful pursuits, leading her to shift her focus to interior design.

Studying the field, she built a career providing the stability and creative fulfillment she desired, all while maintaining her passion for art, exploring various mediums and styles in her free time.

Myriam's artistic journey spans from traditional wood and canvas creations to wearable art like bags and clothing items. Unlike some artists, she is not a product of formal training but possesses a natural flair for creativity.

Originating as a hobby, art became Myriam's expressive outlet, free from rules and restrictions. A self-taught artist with no prior experience, she learned and developed her skills from scratch.

Jean Dolande

France

Interview of Jean Dolande

How did you come to take up painting?

As seeker after emotions, I have experienced the word, then the gesture of the mime; I wanted to transpose the same emotion on the canvas.

How do you work?

According to the emotional scale within which I decide to work through letting go I try to reach emotional purity, just like the ultimate sound of a violin string.

Painting and emotion?

I'm dedicated to emotion like priesthood.

The emotion is pure, ultimate and vibrant and enables you to approach some truth, it projects you beyond yourself.

What do colours mean for you?

Colors have a vibratory impact on each of us and allow us to reset our energies. Imagine life as a system made up of multiple and infinite vibrations among which human beings act as transmitters, receptors of vibrations.

ED

France

Born in 1975, ED has always wanted to create, to mark out a world in her own image, where emotions mingle, a skillful blend of provocation and joie de vivre.

Passionate about drawing and painting from an early age, it was only natural that she should study at the Saint-Luc Institute in Tournai, Belgium.

Inspired by the work of Basquiat, Warhol, Roy Lyncheinstein, and graffiti artists such as Monsieur Chat and JonOne, she works in acrylic.

The viewer wanders between oblivion and memory, each finding their own Proust's madeleine in the artist's work.

ED exhibits in France and Europe, and in 2024-2025 she will be in Barcelona, Dubai, and New York.

Jean-Pierre Fleury

France

Jean-Pierre Fleury currently lives in France, in Le Cap Ferret, on the Bassin d'Arcachon. He is inspired by the beauty of the environment and its ever-changing colors.

He graduated of the ESCP (Ecole Supérieure de Commerce de Paris) and pursued a career as a company director in the field of communication.

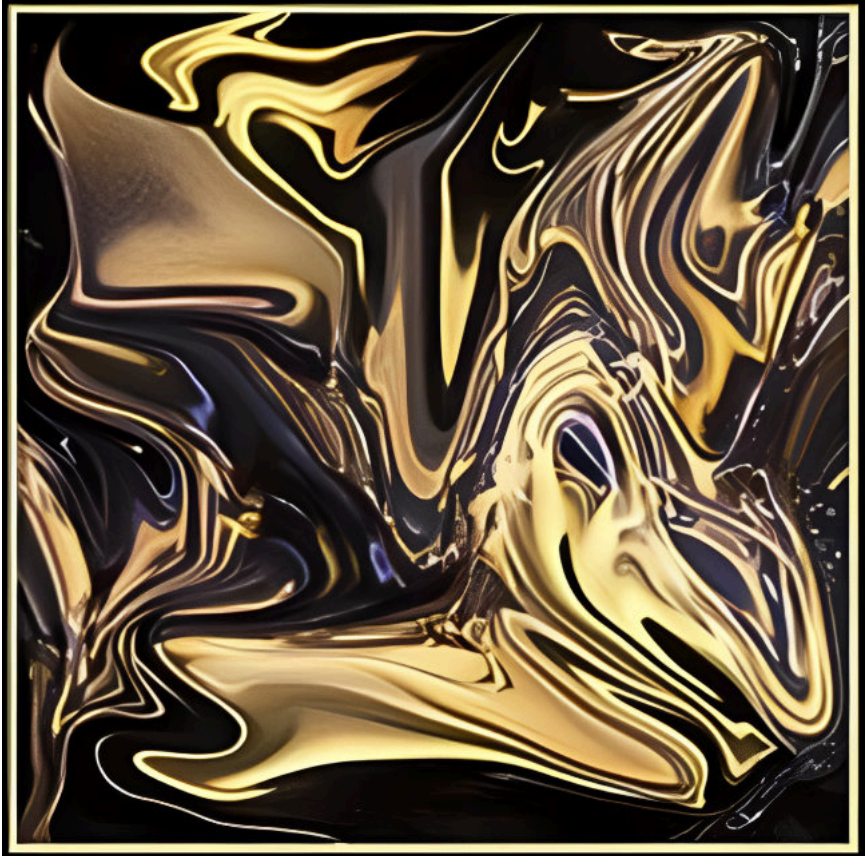

Photographs have always been his passion and now, free from all professional ties, he can give free rein to his creativity, producing collections whose contexts are coherent with a quirky and distorted vision of the world.

Based on the conviction that “beauty is not the representation of truth”, his original vision of reality is an invitation to free the imagination to the frontiers of dreams... Indeed, is the world not made real only through the power of dreams?

His works, unanimously well received, are exhibited mainly in the Bordeaux area, in Paris, in Europe and in Dubai.
